IMAGINATION

Peggy,

Well, this has been a great year hasn't it. I hope next year is just as great. Next year I'll be a mighty senior, but I will remember you, one of those juvenile juniors. Best wishes and good luck to a girl with a wonderful personality.

Love ya,
Amanda

Peggy,

I guess that you're glad that we (Seniors) are glad that we will be graduating. It's not the end; it's just the beginning. You'll find out when your long road to ~~be~~ be a mighty Senior. You very sweet, talented and smart. Use them with the best of your ability and God will do the rest.

Love ya,
WHD

Peggy,

Since everyone else is wishing you good luck I won't. Just keep your head high and chip up and you'll go places I ain't sayin where though. No really you're a very nice girl and really deserves the best life has to offer.

Best of luck,

Mike McAllister

Peg, Well, it's been a long time since I first met you and we've really had some good times. I'll never forget being in the first grade with you. Just two more years and we'll get to leave this ol' place, so we'll have to make the best of them. Good luck, best wishes, and all that.

Love ya,
Pedal

P.S. May Buddha be with you always.

Peggy,

Since I have known you your friendship has meant a great deal to me. You are a friend in which I will never forget. Best of luck that this world has to offer.

See ya,

Dear Peg,

Well, where do I begin to tell you how much your friendship has meant to me. I really don't know how to express it in words. I've only known you two years but I feel as if I have known you all my life! We've really had some great times haven't we! You don't know how much I've appreciated the times you & your family have taken me in as one of the family & I really do feel like one of the family. I've really enjoyed the times I've gone home with you. I'll always remember the good times we've had. Like the "Luan" - remember all the planning we made & the work we put into it. We did have a good time didn't we! I know once & awhile there has been friction between us especially when you came back from France. Things sorta happened "visa-versa" - but I think it really did us all some good. At least you had a chance to see if Mickey was the only one for you. Now you know, I know you love him & you've been put to many tests to prove it & I know Peg & you've been put to many tests to prove it & I know you've found him hard to understand, but he loves you, Peg, I know. & many times he's been tempted but deep inside I know, & in time he will prove it. I've had talks with him & neither of you have any worries. You know you and Mickey & neither of you have any worries. You know I consider you & Mickey like a brother & sister! So don't get the wrong idea when I talk to Mickey. I know I'm going steady too & I'm in love with him (G.Y) & I'm your friend & I don't & wouldn't do anything against you ever. I know I run my mouth too much & too often & too loud, but I can't help it. I know you could kick me - sometimes for the way I act & I apologize for it. I want to thank you for your part in planning that surprise Birthday Party for me. It was really a surprise & I do appreciate it. It really makes you feel good inside to know your friends care enough for you to think of you on your birthday - especially if you haven't been friends long. I'm really glad I came to Pittsburgh because I've made some true & great friendships that I hope will last forever! Thanks to you, you've made both my freshman & sophomore years a success & much more fun. We've had some serious talks & solved some problems, not many though.

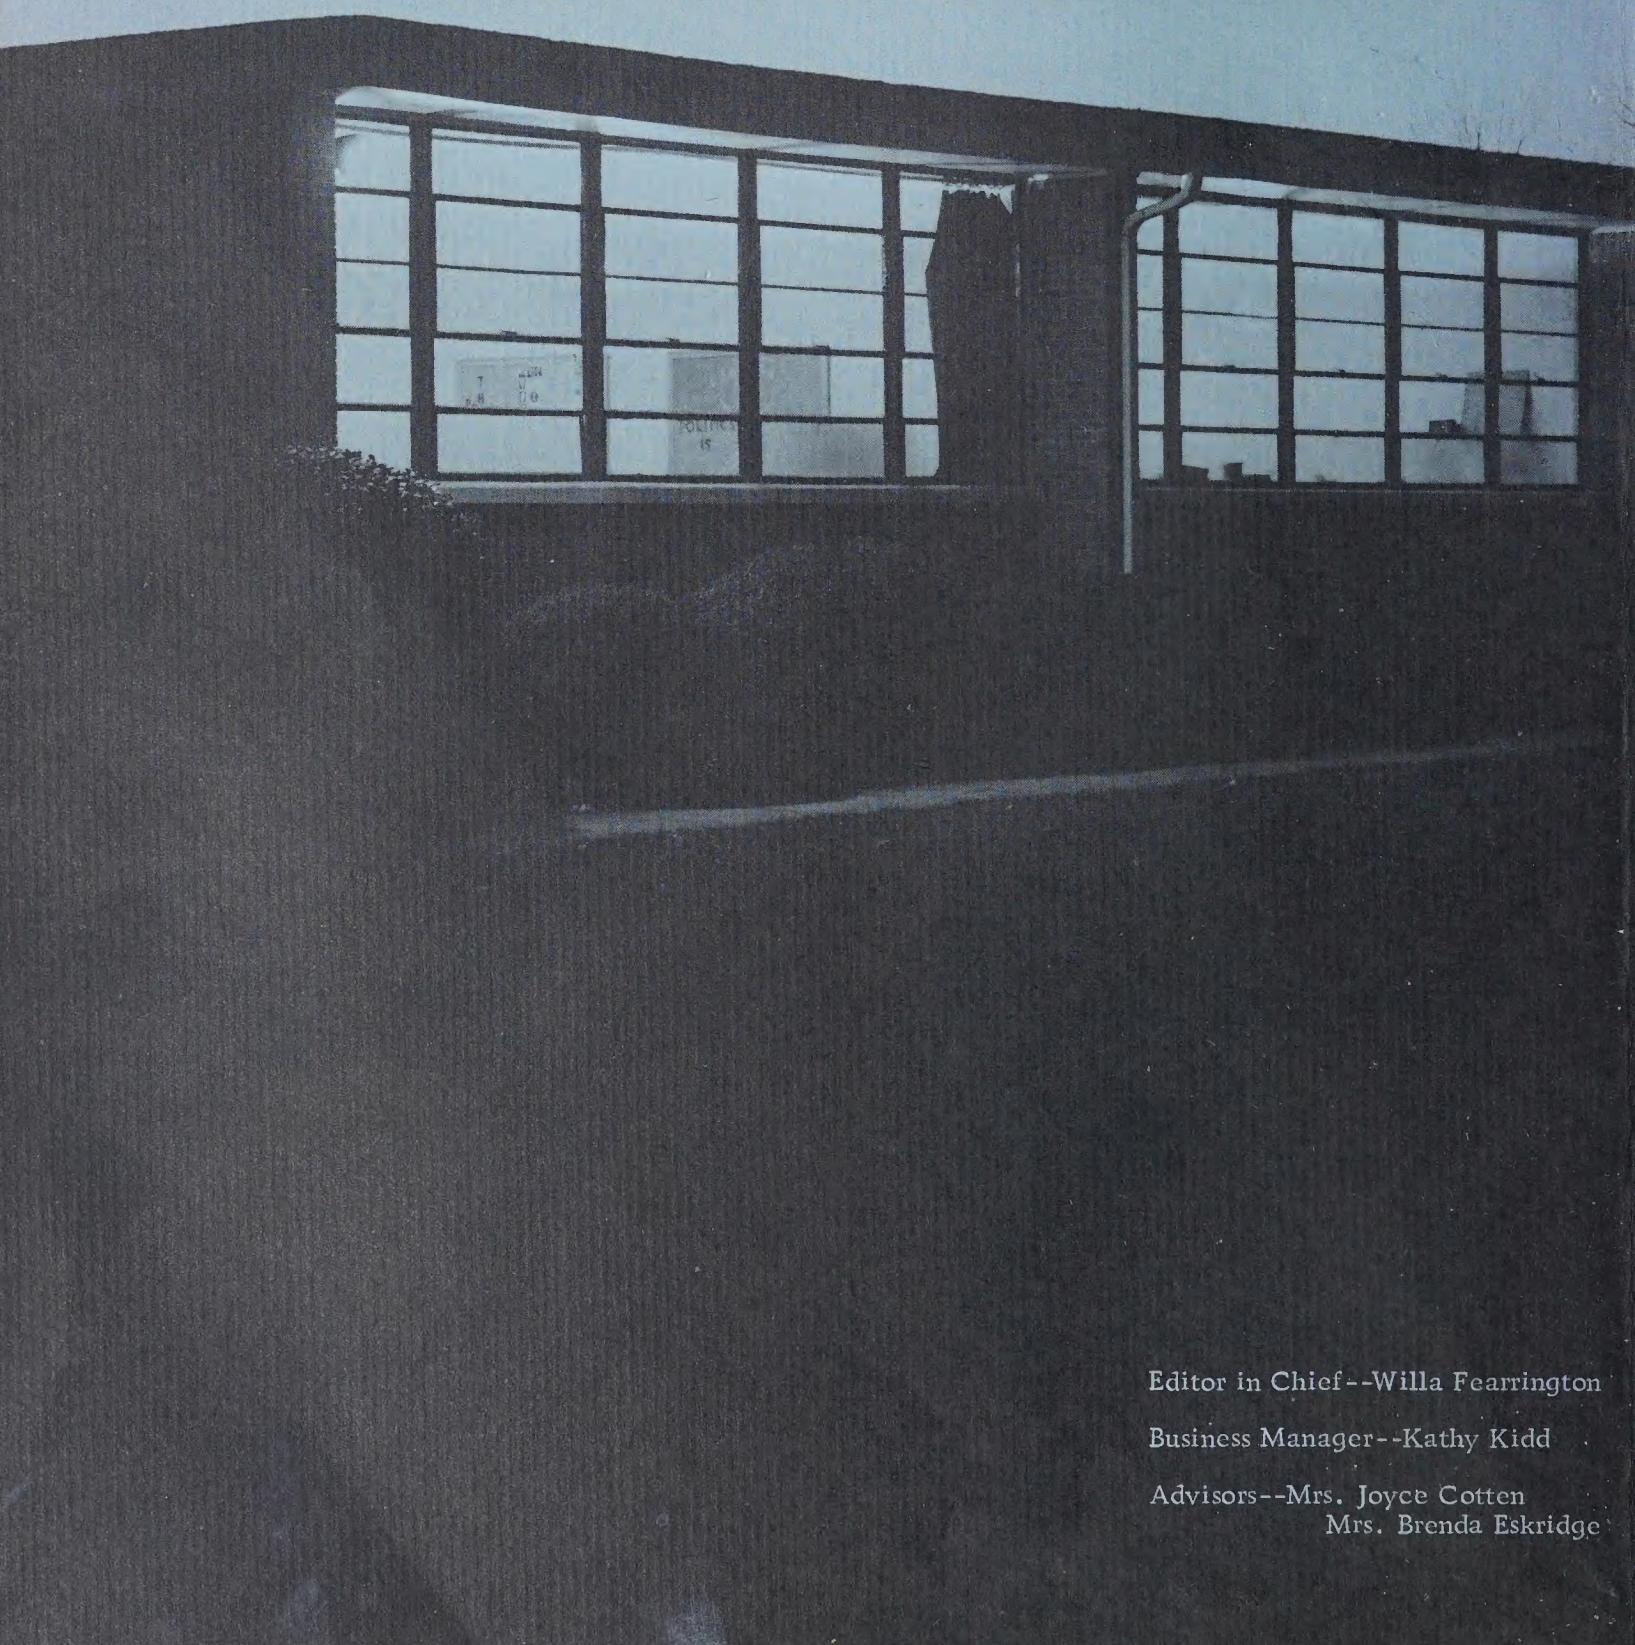

If at any time you feel you need someone to talk to, feel free to come to me. I'll always be around & willing to listen. Thanks for lending me your ear & your shoulder so many times! Especially once! I hope that was the last time I'll have to use your shoulder! Well Mickey will be gone next year & so will George. I guess we'll have to look after each other. So you can tell Mickey you'll be in good hands. Well I guess I've used up about all my space. I just want to say thanks so very much for being my friend & being so good & patient, & considerate. You are a sweet, wonderful, & good looking girl who deserves the best life has to offer (Mickey)! I hope we'll always be friends. Come to see me this summer!

BE GOOD!

Love you
Dawn

In Memoriam

Memories of
smiling eyes
a carefree gait
a talented individualist
all this

But more
enthusiasm
an animated face
a sense of humor
an understanding friend

Even though
we cannot see him now
yet his memory is with us
a friend we'll never forget...

Van Farrell

Memories of
curly brown hair
a lively dancer
a conscientious student
all this

But more
a bright smile
a cheery word
sweetheart of many
friend of all

Even though
among us only a short while
yet leaving on our hearts
an indelible mark...

I'm really glad we have

the way our life is. We should
cherish our other years of life

Peggy,
We really did have a
ball last summer, didn't
we? The things we'd done
on the way to France
were few + far between.
But after we got there -
but after we got there -
La Rochelle - beware!
As you said, we've
really gotten to know
each other this year -
sorroy about those
just few weeks - but
now, I'm all tied up
with Jerry (not that
he's very tied up with me),
but as he always said,
"You win a few and you
lose a few!" C'est la

I hope you always
have the best of luck -

Peggy,
I havent knew u you to
well until this year!! But!! I guess
we have made up for part of it
this year. We have had lots
of fun together which I will
never forget! (I dont like surprised
at what's put in here or how I
spell it because I am doing well
4 things while I am writing this.)
I know you are looking forward
to next year. Your gonna get in
an awful lot of sun. I know you
will miss Melody, but I will.
I know how that is like. I hope
that your high school days have
been and will be as happy and as
much fun as mine have been.
And I hope most you will live
long, you are young.

I know you
are of age now, so I do believe the
most places I do believe the
most by having money you
will have that biggest part of
your life and everything more
longer and away.

Peggy,
I've thoroughly enjoyed
knowing you these past several
years. Are you hungry? I wonder
if we will still be hungry
during the school next year?
Best of luck to a girl with
a sweet personality! Vickie

Well I guess this is my page so let's see what I come up with. Fast, good luck and may God bless you, 'cause nobody else will. No, seriously Peggy, you are one of the sweetest, nicest and prettiest girls I know. Stay the same as you are now, don't ever change a thing, except, your hair style & color every ~~one~~^{mistake} once in a while. Keep coming to Dan's 'cause it seems no one else does anymore.

I hope Mickey Mouse doesn't mind the way I sign this year.

Peg,

Well Granny, I don't know how to begin to tell you what you, your smiling face, and great personality have meant to me since I first met you and began to know you. I have written in other people's annuals (some I will probably never see again) but writing in yours seems to be one of the hardest things I have ever tried to do. You have enlightened my days at ole P.H.S. and helped me get through days that I thought I could never get through. It is going to seem terrible not being able to see ^{you} every day next year like we have been doing, but I'm sure that the same person who got us back together will keep us together.

We have had our ruff times (mostly caused by me) but we have had more great times (hope) and I know they will always continue. Your understanding ways have helped me more than anything else in my life, and you have made me see what I wasn't seeing at first.

[Reserved]

No matter what may happen, I am sure that whatever I may amount to in life must all be credited you.

I know we are going to make it this summer and you don't have to worry about my side letting you down. You may have your doubts about me, but I realize I'm a changed person. I made one big mistake in my life and I promised if I ever had the chance it would never happen again.

Peg I will never forget all the parties, movies, dances, go-go's; and most of all you. You have made my last few years more enjoyable and although I hate to say it, shorter. When I am with you time passes too quickly and before I knew it, I was a senior and about to graduate. I won't be coming back next year and I hope it is not too much to ask of you to "Behave yourself" and try to think about me a little next year. You have ~~two~~^{two} of the greatest years

[Reserved]

left ahead of you and I don't want you to feel tied down or be unhappy. If you ever decide you don't want to go with old "Sugar Bear" anymore let me know first. I would never be able to forget you or stop loving you, but all I care about is your happiness.

I know I'm not the nicest and kindest at times, but I hope I haven't been too ruff on you. The only reason I may have acted or act that way is for one reason, and you should know what that is by now. If you don't, you had better learn!

I beginnins to know what you mean about trying to fill up your pages in an annual. I just can't seem to find words to express the feelings I have toward you. It might be different if I was saying good-bye or going away, but I'm not. I will be seeing you next year, maybe not at school, but

[Reserved]

every other place I get a chance. If there is a way, I know I've got the will.

Well I didn't start out to write a term paper on myself, so I will try to change the subject a little. Peg, you are the nicest and sweetest girl I have ever known. I know that with your personality and wonderful smile you ~~were~~ always find success in everything you may try to do. You are one of the few girls I admire, mainly for the goals you have set for yourself to reach and hope to reach. It was you, your family, and friends that made my last few years more like a dream than the real thing. These will be memories I will always cherish and tell our children about. ~~and~~ Peg, remember one thing no matter what step life may choose for us to take... I love you and I always will! Got that!?! Well you better turn to $\frac{124}{\pi}$.
